

The Book

The Diagnosis

"This is not happening! There's been a mistake!" These were some of my thoughts as I sat in the doctors' office on Saturday, October 17, 1987. I felt like the devil had slapped me in the face and said, "Surprise!! You thought you were going to be happy! Surprise!! Who told you that you were going to get by that easy? I told you as a child, that you'd never be anything, you'd never have anything and no one would ever want you! Surprise!! Surprise!!"

A visit to an ophthalmologist revealed Bilateral Retinoblastoma, which means that my 10-month old son had cancerous tumors in the retinas of both of his eyes. I had just begun to live, so I thought...

To read more of this excerpt from the book entitled, "Don't Be Afraid: He's Preparing You!" please visit www.tonihatton.com

"I could not put Toni's book down! I read it in two days. Her faith, strength, patience, and fortitude, are simply amazing! Don't Be Afraid: He's Preparing You! reveals the epitome of a mother's love and the guidance of a loving God. This book has left an indelible mark on my life. Kevin's story has fueled me to reach my goals with no excuses. Toni paves the way for us to become more resourceful, inquisitive, and thankful each day. This book deserves more than one read!"

Our soil is depleted of the necessary minerals for our optimum health! Our fruits and vegetables are void of nutrition. If the soil is sick, so are the plants, the animals, and humans! This is why we supplement our diets with vitamins, minerals, antioxidant juices, and herbs.

Did you know...

- that an apple sprinkled with cinnamon helps to balance blood sugar levels throughout the day?
- that diets high in red meat and high-fat dairy products contribute to prostate cancer?
- that dandelion, milk thistle, red clover, and ginger teas help to clean the blood?
- that toxins are stored in fat and the pig is all fat, does not sweat, nor have a circulatory system?
- that milk has human growth hormones and can contribute to hormonal imbalances in women?
- that white rice, white potatoes, white flour, white sugar, and white pasta turn immediately into glucose sugar and that sugar plumps up the fat cells?
